

30 August, 2024

Dear Sir/Madam,

TO WHOM IT MAY CONCERN

Mr Josef GSTOETTNER, HKID: M841XXX(X), has worked as Assistant Engineer and promoted to System Engineer in my team for the period between April 2022, and 31 Mar, 2024. He then transferred to another team due to internal re-structuring and remains the title as System Engineer till present.

Throughout the history of his service under my supervision, Josef's overall performance was good and proved himself to be a valuable employee. He provided software developments and on-site supports to a couple of ITF projects (ITP/043/21LP and ITP/058/20LP). He demonstrated strong competence in software programming for the autonomous mobile robot (SLAM) navigation using python and C in ROS settings. He managed to achieve all project deliverables/tasks on time. He always worked whole-heartedly. He showed good interpersonal skills and made him an excellent member to work with.

I strongly believe that Josef will make valuable contribution to any organization that he may join in future. I would certainly recommend him without hesitation in positions of similar capacity.

I wish him every success in his new endeavours. I would gladly answer any request for further information.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Joe', with a horizontal line underneath.

Ir Dr KL FAN FHKIE
